Director:

LCDR V. Pak, DC, USN

Staff Dentist, Oral Surgery Department, BDC Naval Station, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course Description: This course is designed for the general practitioner and the exodontist who is interested in the latest advances in clinical outpatient oral surgery. Topics covered will include medical evaluation of the surgical patient, management of the medically compromised patient, treatment of medical emergencies in the dental operatory, basic and complicated exodontia technique, management of post-operative complications, recognition and treatment of odontogenic infection, antibiotic therapy, biopsy technique, diagnosis and treatment of facial fractures, management of facial soft tissue trauma, dental implants, extraoral/panoral radiography, overview of orthognathic surgery and the recognition of common oral pathoses.

Anticipated Learning Outcomes:

- Diagnose and treatment plan common oral surgical cases.
- Recognize the medically compromised patient and manage medical emergencies in the dental operatory.
- Recognize situations requiring referral to exodontists, oral and maxillofacial surgeons, or coordination with other specialties.

Continuing Education Credit: Max hrs. 21
